Discussion:

Please write a small paragraph discussing teamwork (who did what, how much, was the work allocation fair, did each member respect commitments and deadlines…).

We had an initial meeting to discuss the project, and we determined that we needed 3 pages. One for logging in, one for viewing the available resources, and then one to book the specific resource. We decided to split it evenly among the 3 team members, keeping in mind that our pages will need to be displayed differently for students and admins once we implement the backend. Each member respected their commitments and deadline. Our 4th team member Omar did not attend any meetings or make any contribution, we assume he has dropped from our team.
